

Outcome-based education (OBE) is an educational approach that focuses on assigning particular goals or outcomes to students at the end of their educational journey. OBE, in contrast to traditional education methodologies, provides a systematic structure and specialized approaches to instructional practise. It emphasizes the development of many skills, such as life skills, fundamental skills, professional and vocational skills, intellectual skills, and interpersonal and personal skills. Nirmala College has an integrated approach towards its learning process thus emphasizing on the climax performances of a student to demonstrate learning rather than just knowledge recall. Our students, who come from a diverse sociocultural and economic backgrounds, should not only achieve academic excellence and professional abilities, but also a sense of ethical, social, and environmental responsibility for the society they will serve. Embracing these fundamental principles, NCAS has following OBE in its academics. To lead the implementation of OBE in the College, a separate OBE committee has been formed under the Teaching Learning Centre. The OBE committee meets on a regular basis to define the assessment parameters and monitor implementation progress.

OBE COMMITTEE

1. Prof.Dr. Shaju Ouseph, Principal (Chairman, OBE Committee)
